It helps general trade, promote tourism, and creeate employment oppurtunities

Air transport i also ideal for cartion food products such fresh fish, enofruits and cut 3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

20 minutes

Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your mural.

transportation
network dataset is
a comprehensive
collection of
information on
airports, airlines
and their route.

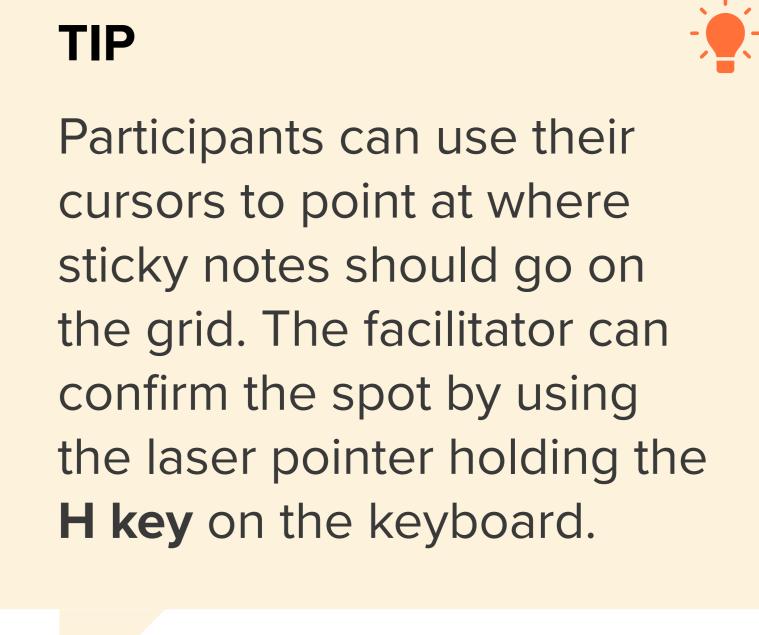

It contains information such as names, cities, codes longitudes latitudes and attitudes of airports across the world with detailed time zone and daylight saving time data.

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

① 20 minutes

People allows from different countries to cross international boundaries.

Air transport is one of the fastest modes of public transport which connects international boundaries.

It is comfortable and quick service but high cost.

it helps generate trade, promote tourism, and create employment opportunities.

knowing the advantage and disadvantages of air transportion by asking the customer.
